

**Light Bulbs**

Authentically detailed exactly like the originals invented by Thomas Alva Edison, these bulbs are authentic right down to their looped filaments and hand-exhausted tips. Ferrowatt's historic lamps are just the right finishing touch of authenticity to Victorian and Art Nouveau fixtures. Ideal for museums, historic preservation projects, traditional hotels, period homes and theatres.

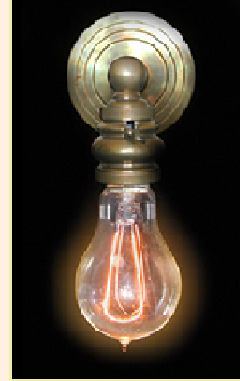

**F1900**  
40W 120V 135 lumens
